

### INFERNO GAS GRILL

The Inferno gas barbecue is energy efficient thanks to its closed burner system and heat-retaining design. The wind resistant burner enclosure makes it practically immune to high winds, which means it's exceptionally suitable for use on the beach.

Grease which is drained from meat during cooking is led through a special channel to a grease collector. The burner assembly is made entirely of stainless steel and can be completely disassembled for easy cleaning.

The single lengthwise burner is adjustable, has thermocouple security and piezo ignition. The Inferno has a completely black epoxy coated frame with four wheels, two of which are caster wheels, and a secure gas bottle holder.

### EUROPA 3 GAS GRILL

The Europa 3 has excellent cooking properties. The high temperature sears meat evenly and quickly, reducing adhesion to the grid even when the grid hasn't been greased.

The three, separately adjustable, lengthwise burners have thermocouple security and electronic ignition.

The Europa 3 has a completely black epoxy coated frame with four wheels, two of which are caster wheels, and a secure gas bottle holder. Grease which is drained from meat during cooking is led through a special channel to a grease collector.

The burner assembly is made entirely of stainless steel and can be completely disassembled for easy cleaning..

### ATLANTA GAS GRILL

The three burners allow the surface to be divided in separate heat zones for simultaneous cooking of meat, vegetables & fish. The Atlanta has excellent cooking properties due to the optimal heat distribution and hot air circulation inside the burner enclosure. The high temperature sears meat evenly and quickly, reducing adhesion to the grid even when the grid hasn't been greased.

The 3 separately adjustable transverse burners have thermocouple security and electronic ignition. The Atlanta has a completely black epoxy coated frame with four caster wheels and a secure gas bottle holder.

The burner assembly is made entirely of stainless steel and the grids are removable for easy cleaning. The 3 separately adjustable transverse burners have thermocouple security and electronic ignition. The Atlanta has a completely black epoxy coated frame with four caster wheels and a secure gas bottle holder.
